## The Columbia Book of Yarns

**E**VERYBODY knits, nowadays! One sees the flashing needles not only in the home and the social circle, but at public gatherings, in trains and trolley cars,—everywhere! Women are knitting as they never knitted before,—for pleasure, for profit, for charities on both sides of the ocean.

With such widespread enthusiasm, this new edition of the Columbia Book of Yarns is particularly welcome. It answers the great need of the hundreds of women who wish to learn Knitting and Crocheting,—such fascinating and useful pursuits! It is the ideal teacher,—ready, patient and practical,—teaching the important early steps by means of clear, graphic illustrations and accurate directions.

It answers, too, the demands of experienced knitters who always want new stitches and new garments on which to try their skill. Many new articles are shown.

One lesson is repeated on every page, because of its importance. It is: Always use Columbia Yarns! The best knitter cannot overcome the handicap of poor yarn, and on the other hand, the veriest amateur takes courage from the soft rich beauty of Columbia Yarns, which even poor knitting cannot disguise. Columbia Yarns have “life,” fullness, elasticity, depth and variety of color. These are the points that count in knitting, and wear, and washing,—that make the difference between true and false economy. Think of them when you are selecting yarns, and you will be sure to get the genuine “Columbia.”

# On the Choice of Yarn

**T**HE beauty of the articles in this book comes of two things—hand work, and a fine yarn. A hand worker, with proper materials, will give her work a delicacy, a fineness of finish, a character that no machine-made work ever possesses. But she must look to her yarns to do it. She must find a lofty, elastic, even thread, soft and thin to the touch made of a wool sensitive to the slightest gradation of shade and color. The COLUMBIA YARNS were used in making all the articles in this book, and they meet the requirements. With them work in yarns becomes an art, and good results are easier and surer.

Stamped by public opinion as the best among yarns recognized as good, COLUMBIA YARNS cost in the beginning a trifle more than some others—otherwise they could not be what they are. In the end they are the cheapest of all. For the cheapness of a yarn is determined not alone by what you pay for a hank of it, but also by what the hank will do in quality, and quantity of work. The coarse, unelastic thread of a common yarn will not reach as far as a yarn of a finer texture, and besides, the COLUMBIA YARNS contain, pound for pound, more yards than common grades. In the finished piece of knitting or crocheting COLUMBIA YARNS mean not only quality but economy.

The brilliancy and shading in COLUMBIA YARNS is unsurpassed. There are no flat, crude, dead colors among them, partly because of the way they are dyed, and partly because of the quality of their thread. A fine wool receives a color and retains the brilliancy of it, where an inferior wool dyes into a lifeless, displeasing shade.

BLACKS in COLUMBIA YARNS are guaranteed fast.

In preparing for your work, therefore, you should get COLUMBIA YARNS. They are standard, even in quality, and when you get to using them you find they demand less of your patience because they do not vary from package to package. They are sold by the best retail stores throughout the country, with but a few exceptions. Should your dealer not handle them, write to us and we will refer you to the nearest store that handles the complete assortment.

## Explanation of Terms Used in Knitting and Crocheting

In the following pages are found the first references are abbreviated. Thus, "work Sg. stitches in knitting and crocheting, the more C or D C" means "work a single crochet or a complex stitches are made by various repetitions and combinations of the simple ones already given. Therefore you will find references continually to the first steps, and the double crochet"; the method of working these is explained on pages 11 and 12. The following is a list of the abbreviations used, with the explanation of them:

Ch.—Chain stitch. Explained on page 11.

Sl. St.—Slip a stitch. Explained on page 11 (crocheting) or page 9 (knitting).

Sg. C—Single crochet. Explained on page 11.

D C—Double crochet. Explained on page 12.

L C—Long crochet. Explained on page 12.

T C or Tr. C—Treble crochet. Explained on page 12.

P—Picot.

C—Crochet.

Th. O—Throw over.

Stars, thus \* \*, mean that the work described between them is to be repeated. They save unnecessary description where a row is the same as a preceding one.

Wrap—Means to throw yarn over needle.

The Instructions for every article shown or referred to in this book were written from the original garment worked out with the size Needle or Hook mentioned therein.

We caution all Knitters and Crocheters who are inclined to knit or crochet tight to use a larger size needle or hook; and if loose a smaller size needle or hook, otherwise your garment will not work out in size according to instructions.

# First Stitches: Knitting

TO CAST ON STITCHES

Make a loop in the yarn, and put it on the left-hand needle. Slip the right-hand needle into the loop, throw yarn around the point of right-hand needle, draw it through and slip that loop on the left-hand needle. Put the right-hand needle into the loop just made, and repeat until you have the required number of stitches.

TO KNIT PLAIN

Having the number of stitches required on the left-hand needle, slip the right-hand needle into the last stitch made. Throw yarn over right-hand needle and draw through stitch. Repeat until all the stitches are on the right-hand needle.

TO PURL, OR SEAM

Bring the yarn in front of the right-hand needle, take up the stitch on the left-hand needle by slipping right-hand needle into the front of stitch. Throw yarn around the back of needle as it passes in the stitch, catch it in, and take it off. Be careful always to carry the yarn back of the needle after a purl'd stitch before knitting a plain stitch.

# First Stitches: Knitting

## TO SLIP A STITCH

Take the stitch from the left-hand to the right-hand needle without knitting it.

## TO MAKE A STITCH

To increase or make a stitch insert the needle in the stitch, make a stitch, then in the back of same stitch make another stitch, now slip the stitch off the needle, this gives you 2 stitches in 1. By this method of increasing a stitch, a stitch is added without making a hole in the work.

## TO MAKE A STITCH WHEN PURLING

The yarn being already in front of the needle, must also be passed around the needle.

## First Stitches: Knitting

TO MAKE A TWIST STITCH

Like plain knitting, except that the needle must be put in the back of the stitch. Then knit as usual.

TO SLIP AND BIND

Slip the stitch from the left-hand to the right-hand needle without knitting. Knit the next stitch, then pass the slipped stitch over the knitted one.

Note.—Sometimes the slipped stitch is passed over 2 and even over 3 stitches knitted together, where it is necessary to decrease the number of stitches.

TO BIND OFF

Knit the first 2 stitches, pass the first stitch back over the second stitch, knit 1 stitch, pass the stitch on the right-hand needle over it, and repeat until but 1 stitch remains. Draw yarn through and break off.

# First Stitches: Crocheting

## CHAIN STITCH

Make a series of loops, drawing each loop through the preceding one.

## SLIP STITCH

Skip first stitch of chain. Insert the hook in next stitch, throw yarn over hook and draw through both loops on needle.

## SINGLE CROCHET

Insert hook, draw yarn through, pass yarn around the hook, and draw it through both loops on the hook.

## First Stitches: Crocheting

### DOUBLE CROCHET

Pass the yarn around the hook, insert the hook, draw yarn through: pass the yarn around the hook and draw yarn through 2 loops and again through 2.

### LONG CROCHET

Pass the yarn around the hook, insert hook, draw yarn through: pass the yarn around the hook and draw it through 1 loop, then through 2, then again through 2.

### TREBLE CROCHET

Pass the yarn around the hook twice, insert the hook, draw yarn through: pass the yarn around the hook, draw through 2 loops, again through 2 loops, and again through 2.

16 loops on the other side of the heel and knit 8 stitches off the 1st needle or top of the heel.

**Gusset**—First Round—\* on 1st or foot needle, knit plain to within 2 stitches of the end, knit them together. Knit along instep needle. On 3d or foot needle slip 1, knit 1, pass the slip stitch over, then knit plain to end of needle.

**Round 2**—Like the 1st round.

**Round 3**—Knit plain.

Repeat from \* until there are 80 stitches in the round.

Then knit plain for  $3\frac{1}{2}$  inches.

Knit plain to end of needle. Repeat all around. Knit round plain. Continue narrowing every other round at beginning of each needle until 4 stitches are left, 1 on each needle. That fact alone will immediately recommend it to thousands of women.

COLUMBIA LUSTRONE is the “Brightest and Best” embroidery thread.

## Directions for Washing Knit Garments to Avoid Shrinking

1. Make warm Soap Suds (not much soap). Proper heat for the suds is just uncomfortably hot for the hands, but so as not to scald.

2. The washing and rinsing should all be done in warm—not hot water.

3. Use pure soap only; no chemicals or washing powders.

4. Do not rub soap on the garment. Put the garment through the wringer and back in the suds 3 or 4 times. Rinse out in clear water, *very thoroughly*.

5. Wash carefully, rubbing as little as possible, and *never on a washboard*.

6. *Let the Suds and Wringer do the work.*

7. Stretch the garments lengthwise and dry quickly in the open air.

Part of the reward of buying a good yarn comes to you when you wash the garment made of it. The best wool stands washing best, and the best is Columbia.

No garment, however, should be washed without the greatest care, in accordance with the directions given.

## Columbia Yarns

Columbia Yarns were used exclusively in the making of all the articles shown in the Columbia Book of Yarns. This fact has been carefully considered in writing out the directions for making each article, so we wish to remind you that in order to secure effects like the pictures, with the same quantity of yarn, it is necessary to use Columbia Yarns and no others.
